

HMX 100 ZIP

EXTERNAL ZIP BLIND 100x120mm HEADBOX

The Helioscreen **HMX 100 ZIP** is a unique and versatile external blind system.

The zip guide channels hold the fabric laterally, removing gaps between the channel and the fabric, which increases stability and visual appeal.

Designed and engineered in Europe, this system features a discreet and compact 100x120mm headbox and allows many installation variations, including concealment within a top recess.
